Violin, Bass Violin, Double Bass, Violin Strings of

THE REVIVING.

VERMONT. The Legislature of this State convened at Montpelier on Thursday the 11th. The official vote for Governor was declared, and the following was the result:

Biles H. Jenison, (Whig) 24,738
Wm. C. Bradley, (V. B.) 19,194
Scattering, 37

Total vote, 43,969

The official result of the election shows that Gov. Jenison has 5,507 majority, out of 43,969 votes cast. Last year, he had 4,892 majority, out of 39,908 votes cast. This shows an increase of 3,071 votes, and a Whig gain of 985. This will avenge the cry of "re-action," which the Know-Nothing over the Vermont election.

Octo. In this State the result is doubtful.

The news from the southern countries is unfavorable for the Whigs. We have partial returns from Belmont, Grafton, Coquimbo, Jefferson, Licking, Perry, Morgan, Harrison, Fairfield, Muskingum, Knox, and Richland, in which counties the Free Soil ticket leads 7,505 votes to 5,600 majority. The Whig ticket has about 500 majority.

It is stated upon apprivation authority that Dr. Duncan is re-elected. This we think highly probable. The same source gives an administration majority in Shelly and Montgomery counties, which, if it is, is entirely unanticipated by the Whigs. In Franklin, our party is successful. In Cuyahoga county, Vance has an increased majority, and the entire Whig ticket is carried. In Lorain, all the Whig candidates are elected by about one hundred and fifty votes. Lorain formerly sent an opposition member to Congress.

The New York Express published partial returns from 20 counties, in which the Van Buren majority is 627, gain, 4634.

PENNSYLVANIA. Porter's majority, as given in the Express, is 4,845. Whig gain since the last Gubernatorial election, 7,730. Thus far, there are 11 Whigs and 16 Locos elected to Congress. Last year the members of Congress stood Whigs 11, Locos 17. There is one district yet to be heard from.

The House of Delegates consists of 100 members. In '34 year 42 Whigs and 57 Locos were returned. Thus far this year there are 31 Whigs and 31 Locos elected, and 48 members to be heard from.

The Senate last year was composed of 18 Whigs and 15 Locos. Nine members are chosen this year; as far as heard from 4 Whigs and 3 Locos are elected.

Georgia ELECTION. We have returns from three more counties in Georgia. There are now ten counties to be heard from, nine of which at the last election gave Schley a majority over Gilmer of 932 votes. The tenth county is Dade, created at the last session of the Legislature.

Whig. Van Buren. - 31,705 Campbell 30,160
Hawthorne 31,020 Iverson 29,128
Alford 31,000 Patterson 20,060
Colquitt 30,005 Graves 29,017
King 30,800 Fowler 28,925
Nash 30,626 Hillier 28,940
Warren 30,557 McWhorter 28,727
Black 30,554 Burney 28,875
Cooper 30,507 Nelson 28,758

South CAROLINA. The election took place in this State on Monday and Tuesday of last week. The Sub-Treasury ticket has prevailed in Richland district, in which Columbia is situated, by a majority of 40 or 50 votes. In Charleston district, Mr. E. Holmes is elected over H. S. Legate, the present member. In Charleston the vote stood, Holmes 1148, Legate 715.

From NEW JERSEY we have no further intelligence.

The meeting held in Philadelphia on Saturday evening by the Whigs to take into consideration the outrage committed by certain twelve judges upon the votes of the Northern Liberties, was very large. At the very lowest calculation, 15,000 people were present, and but one, feeling provoked this dense mass, that of indignation at the unprecedented attempt of a few to deprive them of their most valuable right, that of suffrage. The greatest order, and at the same time, enthusiasm, prevailed. More than 1,000 resolutions of the most patriotic and determined character were offered and carried by acclamation, the meeting having been previously addressed by Messrs. Naylor, Haaps, Brewster and others.

On the arrival of Mr. S. S. Prentiss at Vicksburg, a meeting of the citizens was called to express the high regard they entertained for their distinguished and talented representative. Whereupon a committee was appointed to express to that individual, the gratification and pleasure accorded by his safe return to the bosom of his friends, and tender him a public dinner, as a further mark of their regard. The invitation was accepted, and the festival was to take place on the 7th inst.

Flour has fallen again in New York. The Express of Tuesday evening says, when we last wrote on the 10th, of great brands Western flour at \$10.85 - the wheat crop in Michigan is fair. The market is now in a state of great suspense at all the eastern ports, of which is already up to \$12 by the 17th.

A large number of the New York papers have

CITY ANNALS.

IN CO. - Oct. 16, 1835. - The Mayor of Co. of the 18th inst. concurred in the concurrence of the City Solicitor, establishing a Fire Department, and announcing his intention of returning immediately to England, giving the reasons which induce him to return, one of which is that he has not met with that support from the government which was necessary to give full efficiency to the healing measures he had taken or had in contemplation for his disposal of the political prisoners, which was particularly disapproved of by the Legislature.

Report of Street Engineers, on petition of John Mason, for pay for placing edge stones, giving petitioner leave to withdraw, accepted in concurrence.

Report of same, relating to India street and

Prague Alley, Oct. 16, 1835. - The same.

Report of same, on grade of Hammond street, accepted in concurrence.

Report of same, laying out a Public Square on Wall street, same down, read, laid on the table, and Monday next adjourned. [Estimated

expense of purchasing the said square is about

\$16,000, of which individuals will pay \$12,000,

and the city the remainder. - The amount.

Report of the Auditor on Claims and Accou

nts accepted in concurrence.

Adjourned to Monday next, 7 o'clock P. M.

THE RICHT KIND OF TRADES UNION.

The publishers and proprietors of newspapers in Mobile have had a meeting, and come to an agreement, pledging themselves, each to the other, to conduct their business hereafter entirely on the cash principle. All transient advertising bills to be paid for before insertion, and all subscriptions and contracts for advertising by the year, to be paid in advance. This is a trade union of the right sort. But they ought to have gone one step further, and pledged themselves not to accept any communication by which the interests of individuals are sought to be promoted, except as advertisements payable in advance.

THE STEAM BOAT LAW. The steam boat inspectors have already condemned the boilers of several boats on the western waters, which have ceased to run. This law, it will be recollected, was passed by the last Congress, to prevent the shocking destruction of human life caused by defects of boats and unsound machinery.

The steam boat owners in Cincinnati, interested in opposing the provisions of the law, have held a meeting there, and resolved to resist its execution. We reckon they will place themselves in rather an awkward "fix," if they attempt it. The law was called for by the people, and will be sustained by them.

[Communicated.]

" FROM THE FAR WEST."

Masters. - You are serving up for your readers, fine descriptions of the far west, which tickle the ears of many who are made to think, if they could reach the promised land, their fortunes would be made at once, without labor, privations, sickness, or death. Find corn plenty, at 25 cents per bushel, and wheat at 50 cents per bushel. But a person direct from there, reports that many farmers, who are worn down by sickness, and no money to hire help, even offer half their crop to any who will harvest them, and in many places, are unable to get it done at all.

We should call such cases, here, sad times in

deed, where we get 20 to 25 bushels of wheat to the acre, and sell it at \$1.50 per bushel, and get

plenty of help at \$12 per month. Health and

strength, with prudence and industry, will give

an abundance of the necessaries and luxuries of

life. But with all these, some will not be content, they are "always to be, but never, blest."

Mr. Music. Col. Matthew Rny, assisted by

a friend, will give musical treat to the Bangor

Mechanic Association, at their Hall, This Evening, at seven o'clock. A general invitation is

extended to members, their families and friends.

FEVER IN CHARLESTON. The total number

deaths for the week ending Oct. 6th, amounted

to 51, thirty eight of which were by stranger's

fever. There has been no abatement in the

progress of the disease.

Mr. Hon. Caleb Cushing has been nominated

for Congress in Essex North, Mass. Nathan

Brooks is nominated in Middlesex District.

The Locofocus of New York City have

nominated for Congress, C. C. Climbrelong Ed-

win Forrest, Eli Moore, and John McKeon.

Irish Applause. Not long since the last lie-

tenant was met by a funeral procession in one of

the roads near Dublin, when the mourners, one

and all, halted, and gave his Excellency three

cheers.

The Louisville Journal says, The editor of

the [Globe] says that he does sometimes

"shame the devil." It cannot be by telling the

truth, it must be by outyng him.

A Bore. "I want to see some of your gimbels," said a green-horn, one day, as he entered a hardware store. The dealer took down several parcels, neither of which suited. "Well, then, what kind do you want? Here is almost every variety." "Why, darn it, I want them that bore square holes."

Gen. W. H. HARRISON. The statesman and

warrior.

"There were heroes of old, but unblest was

their lot,

And unblest they sleep in the crossways of fame,

But ah, there is not

One honoring blot

In the breath that encircles our own hero's name."

Bunker Hill. The workmen have re-

opened operations upon Bunker Hill, and are

driving a brisk business in the dirt like

prospector to the laying out of lots and the erection

of buildings. In a few years more our town

will fill - and a guide to point out to them the

extents of the field where the opening battle of

the war was fought in the year of 1775.

It did not then the British

attack upon the little breast

work, - but John's guard sprung up in

night and they in the field that the bear of

the British was fought in that man's yard.

But this is not a tale of the

olden time.

At the close of the year 1835, the

work of the Bunker Hill's work

are still - too excellent and lucrative.
